

The price of silicon, a major raw material of solar panels, rose by about 300% from 17,000 yuan (US\$2,682) per ton to 67,000 yuan in the last quarter of last year as Yunnan and Sichuan provinces slashed their silicon outputs by 90% ...

The cost of setting up a solar power station in China increased for the first time in 15 years, as the prices of raw material rose amid booming demand driven by the country's green ambitions. In 2021, the installation of ...
