

Analysis of JA Solar's power generation situation

How much power does JA Solar produce a year?

As of the end of 2022, JA Solar had a PV power plant capacity of 963MW, with an annual power generation of over 800 million kWh. Strengthening the foundation of corporate governance and promoting the company's sustainable development: JA Solar regards excellent governance as a cornerstone of sustainable development.

What is JA Solar doing with PV Cycle?

Additionally, JA Solar initiated the establishment of the "PV Recycling Industry Development Cooperation Center" and entered a strategic collaboration with PV CYCLE to promote the dismantling and recycling of discarded PV modules.

Why did JA Solar and TÜV Rheinland conduct a one-year energy yield test?

JA Solar and TÜV Rheinland recently reported the results of a one-year energy yield test at the national outdoor yield test base for PV products in Qionghai, Hainan, China. The test aimed to study and verify the power generation performance of different types of modules, especially n-type modules and p-type modules. 1. Project Information

Does JA Solar have a warranty?

Regarding power degradation, due to the natural advantage of n-type modules for LID-free and better LeTID performance versus p-type modules, JA Solar provides a 30-year linear power output warranty with less than 1% degradation in the first year and less than 0.4% annual degradation in the following years.

How did JA Solar perform in the first half of the year?

The performance achieved JA Solar's long-term goals, realizing stable growth and sustained profitability. The strong performance was due to the strength of the company's global service network and highly recognized brand. In the first half of the year, JA Solar implemented a number of operational improvements that drove its success.

How did JA Solar perform in 2022?

Revenue grew 43.5% from the first half of 2022, while net profit attributable to shareholders increased 182%. Total assets reached 87.9 billion CNY, with net assets attributable to shareholders of the listed company reaching 32.5 billion CNY. The performance achieved JA Solar's long-term goals, realizing stable growth and sustained profitability.
