

Bracket base connector photovoltaic

What materials are used for mounting base brackets?

Mounting base brackets are fabricated from Series 6000 structural marine grade aluminum. 5/16" hardware included. "L" Feet are fabricated from high-strength 3/16" aluminum and include a vertical slot for adjusting to irregular surfaces. 5/16" coated hardware included. "L" Feet are fabricated from high-strength 3/16" aluminum.

How do you install a protea bracket on a metal roofing panel?

The ProteaBracket is mounted directly onto the crown of the roofing panel, straddling the profile. No surface preparation is necessary. Peel adhesive backing and apply bracket to the metal roofing panel.

Does the proteabacket come with a rubber sealant?

The ProteaBracket comes with a factory-applied EPDM adhesive rubber sealant on the base that ensures quick weather-proof installation. There are no messy sealants to apply and no chance for leaks. The factory applied adhesive rubber sealant ensures quick installation and a weather-proof fit.
