

CHINT Solar Support

What is Chint solar?

The 51.5MW PV power station was the first construction project of CHINT Solar in Poland during the COVID-19 pandemic. With leading technology, superior products and fast-response services, CHINT Solar has overcome difficulties in international standards, program design, communication barriers and cold weather.

Does Chint still make solar panels?

CHINT is a big company -- as in billions of dollars of revenue each year big. It's also diversified, which means they do more than just make solar panels. Hopefully, this increases their odds of still being around in the future to honor their solar panel warranties. The company was founded in 1984 and has around 30,000 employees.

Who is round station imaging Chint smARTpower?

All - Round Station Imaging Chint Smartpower is capable of conducting the technical due diligence to all PV system components and quality audits, and offers various technical upgrades for solar power plants, whose benefits and profitability are tested by our experts on a customer-specific and non-binding basis.
