

Concord Solar Energy Storage Project

What is the Concord Coaldale solar project?

Project summary: The Concord Coaldale solar project, in partnership with ACFN Green Energy L.P (wholly owned by Athabasca Chipewyan First Nation) and Concord Green Energy Holdings Ltd., will deploy a 15 MW/34 MWh battery energy storage system on the site of existing solar arrays.

What is the Concord Vulcan solar project?

Project summary: The Concord Vulcan solar project, in partnership with ACFN Green Energy L.P (wholly owned by Athabasca Chipewyan First Nation) and Concord Green Energy Holdings Ltd., will deploy a 15 MW/34 MWh battery energy storage system on the site of existing solar arrays.

What is the Concord monarch solar project?

Project summary: The Concord Monarch solar project, in partnership with ACFN Green Energy L.P (wholly owned by Athabasca Chipewyan First Nation) and Concord Green Energy Holdings Ltd., will deploy a 15 MW/34 MWh battery energy storage system on the site of existing solar arrays.

Is Concord Green Energy a good investment?

Concord Green Energy has projects of scale in wind, solar and hydro at various stages of planning, development, and operation across Canada. Concord's current green energy projects can power more than twice the needs of all its communities. "Green energy is not only a good investment, it's the right thing to do for future generations."

Does Concord Pacific have a green energy project?

Focusing on the clean energy sector is a priority for Concord Pacific, with hydro, solar, and wind projects in BC, Saskatchewan, Ontario, and Alberta. Concord Green Energy projects currently generate enough energy to power every residence in Vancouver's core.

What is Concord Green Energy doing in Ontario?

Concord Green Energy's first-ever power project was Red Lily in Saskatchewan and was built almost a decade ago to help diversify SaskPower. Concord's subsequent wind farms are in Ontario and are already contributing to Ontario Power Generation.

Coaldale, Monarch and Vulcan solar farms are described as the first \$145 million step in the partnership between Concord Pacific's wholly owned subsidiary Concord Green Energy and ACFN Green Energy. The project is estimated to ...
