What is the \$7 billion solar for all program?

Oops, something went wrong. Check your browser's developer console for more details. Under the \$7 billion Solar for All program, the 60 grant recipients will create new or expand existing low-income solar programs, which will enable over 900,000 households in low-income and disadvantaged communities to benefit from distributed solar energy.

How much will solar energy save a community?

This \$7 billion investment will generate over \$350 million in annual savings on electric bills for overburdened households. The program will reduce 30 million metric tons of carbon dioxide equivalent emissions cumulatively, from over four gigawatts of solar energy capacity unlocked for low-income communities over five years.

Does Washington have a solar program?

Washington's proposal includes a program focused on single-family homeowners, a program that helps multifamily affordable housing properties access other state and federal solar incentives, and a program focused on Tribal solar deployment that will be co-designed with Tribal governments.

Who will receive a \$7 billion solar grant?

Washington - Today, April 22, as the Biden-Harris Administration celebrates Earth Day, the U.S. Environmental Protection Agency announced 60 selectees that will receive \$7 billion in grant awards through the Solar for All grant competition to deliver residential solar projects to over 900,000 households nationwide.

What is solar power in your community?

Solar Power in Your Community serves as a guidebook to assist local government officials and stakeholders in increasing local access to and deployment of solar photovoltaics (PV). This 2022 edition highlights new technologies and strategies to maximize the benefits of solar to all communities.

How will EPA's 60 solar for all program help low-income households?

EPA estimates that the 60 Solar for All recipients will enable over 900,000 households in low-income and disadvantaged communities to deploy and benefit from distributed solar energy. This \$7 billion investment will generate over \$350 million in annual savings on electric bills for overburdened households.
