

Who makes the best grid-connect solar inverters?

We review the best grid-connect solar inverters from the worlds leading manufacturers Fronius, SMA, SolarEdge, Fimer, Sungrow, Huawei, Goodwe and many more to decide who offers the highest quality and most reliable solar string inverters for residential and commercial solar.

What is a solar inverter?

The solar inverter is one of the most important parts of a solar system and is often overlooked by those looking to buy solar energy. This review highlights the best inverters from the world's leading manufacturers to ensure your solar system operates trouble-free for many years.

Who makes Fimer solar inverters?

FIMER is a well established Italian based inverter manufacturer that took over ABB's solar division in early 2020. The company is in the process of revamping many of the ABB style inverters and is expanding its range of high-quality string solar inverters for residential, commercial and utility-scale applications.

Which solar inverter should I buy?

While this review focuses on common string solar inverters, we would rank microinverters, such as those from Enphase, in the top 3 solar inverters and are highly recommended. * Extended warranty options may vary depending on the country or region. ^ SolarEdge price range excludes the required panel-mounted power optimisers.

Are Micro solar inverters a good choice?

Despite the slightly higher cost, micros are becoming more popular worldwide due to several advantages over string solar inverters. While this review focuses on common string solar inverters, we would rank microinverters, such as those from Enphase, in the top 3 solar inverters and are highly recommended.

What is a microinverter solar panel?

Microinverters, or micros, are very small solar inverters attached directly to individual solar panels. Since each microinverter and panel operate independently, they are an excellent option for complex roof layouts and locations with shading.
