

Energy Storage Solar Panel Factory

Where is huonen solar based?

China-based module manufacturer Huonen Solar said it wants to build a panel manufacturing facility in Orangeburg, South Carolina. The factory will produce modules for the US market.

Which solar companies are based in the US?

These moves aim to maintain a competitive presence in both the US and global markets. As of now, Trina Solar, JA Solar, Jinko Solar, LONGi and CSI Solar, the world's top five module manufacturers, have either established or are in the process of constructing manufacturing facilities in the US.

Can Hounen produce monocrystalline solar panels for the US market?

"Our new solar panel production plant will enable us to produce monocrystalline silicon PV panels for the US market," said Hounen CEO Jufang Ly. "We are grateful for the help and support of the South Carolina team and look forward to additional business opportunities in the state."

What does IRA do for the solar industry?

When it comes to the solar industry, IRA aims to increase domestic solar manufacturing and strengthen the supply chain, reducing dependence on Chinese components. Most of these investments in the US are from China's leading solar companies.
