What is gravity energy storage system (GESS)?

The 25 MW/100 MWh EVx(TM) Gravity Energy Storage System (GESS) is a 4-hour duration project being built outside of Shanghai in Rudong, Jiangsu Province, China. The EVx(TM) is under construction directly adjacent to a wind farm and national grid.

What is Energy Vault EVX gravity-energy storage system (GESS)?

Energy Vault has connected its 25 MW/100 MWh EVx gravity-energy storage system (GESS) in China. Once provincial and state approvals are obtained to start operating, it will become the world's first commercial, utility-scale, non-pumped hydro GESS.

Where is Energy Vault's first EVX system located?

Where is Energy Vault EVX GESS located?

Gravity storage system provider Energy Vault's first commercial EVx GESS has been connected to the grid in China. Earlier this week, the company confirmed that the 25 MW/100 MWh EVx system, located in Rudong, China's Jiangsu province, was connected in December 2023, enabling full commissioning by State Grid Corp. of China.

What is Energy Vault EVX?

In 2020, Energy Vault had the first commercial scale deployment of its energy storage system, and launched the new EVx platform this past April. The company said the EVx tower features 80-85% round-trip efficiency and over 35 years of technical life. It has a scalable modular design up to multiple gigawatt-hours in storage capacity.

Does Energy Vault have a gravitational energy storage tower?

Energy Vault secured \$100 million in Series C funding for its EVx tower, which stores gravitational potential energy for grid dispatch. The EVx energy storage tower lifts composite blocks with electric motors. Image: Energy Vault. Energy Vault, maker of the EVx gravitational energy storage tower, has secured \$100 million in series C funding.
