

Excess electricity from photovoltaic panels

If you produce excess solar power (as will be the case for many customers during daytime hours, especially in summer) then your system will feed power out to the grid. This essentially treats the grid like a battery, "feeding" ...

Solar panels could help you save £100s a year on your electricity bills. Using the energy you generate can mean big savings for some households.; You can get paid to export electricity you generate but don't use through the ...
