

Who makes the most solar inverter in China?

In the first half (1H) of 2019, the top five solar inverter manufacturers in China accounted for 36.44% of inverter exports globally from China according to the latest trade data. Huawei, Sungrow, Solis, Goodwe, and Growatt came out as the top five inverter companies in China in 1H 2019.

What are China's solar PV exports?

In 2021, the value of China's solar PV exports was over USD 30 billion, almost 7% of China's trade surplus over the last five years. In addition, Chinese investments in Malaysia and Viet Nam also made these countries major exporters of PV products, accounting for around 10% and 5% respectively of their trade surpluses since 2017.

Which inverter vendors dominated the global photovoltaic market in 2022?

Huawei and Sungrow remained market leaders in 2022, as they have done since 2015, while AISWEI and SOFAR entered the top 10 ranking. The top 10 global photovoltaic (PV) inverter vendors accounted for 86% of the market - an increase of 4% year-over-year, whereas the top 3 players captured 60% of the market share for shipments in 2022.

How PVBL ranked the top 20 global photovoltaic inverter brands in 2023?

On the first day of the conference, PVBL's annual ranking of the Top 20 Global Photovoltaic Inverter Brands was announced. Preferential policies promoted the inverter market growth in 2023. Most of the major inverter companies won a large amount of orders and expanded their capacity with high shipment volume.

How much are Chinese inverter exports worth?

Import and export customs data from the first half of 2019 shows that Chinese inverter exports were valued at \$1.3 billion, with the top 20 PV inverter companies accounting for nearly 50% of the export value.

What happened to PV inverter companies in China?

PV inverter giants, Siemens and Schneider, and ABB Group have slowly pulled off the inverter business, leaving a void while Chinese companies continue to expand and consolidate their activities around the world.
