

# Flat-panel solar rack installer

Which solar racking system is right for You?

But harnessing this power requires a sturdy foundation - a reliable solar racking system. Two prominent names in this arena are IronRidge and Blue Pacific Solar, offering both pre-built and DIY options for securing your solar panels to the roof. IronRidge boasts a reputation for robust and adaptable mounting systems.

Can a solar panel tilt mount be installed on a flat roof?

Build strong and efficient solar arrays on flat roofs. IronRidge Tilt Mount supports a wide range of solar panel tilting angles, while also resisting the extreme wind and snow forces experienced over a building's lifetime.

How do I install a flat roof solar array?

Complete row-to-row bonding in the array. Connect arrays to equipment ground. Complete wire management with weatherproof ties. Manage wires underneath module and Chassis flange. Create mounting platform for inverters. Add anchors to the ballasted system. IronRidge BX delivers superior power density and design flexibility to flat roof solar arrays.

Can you add solar to a flat roof?

Fully certified. Adding solar to a flat roof has built-in complexity and requires a wide array of options to meet the building requirements--such as a mechanically attached system, a ballasted system, or even a hybrid system. An attached system that utilizes the strength of XR Rails to support a wide range of solar panel tilting angles. [Learn More](#)

What is solar stack?

Solar Stack is an innovative and damage-free solar panel mounting system that revolutionizes the way solar panels are installed on roofs. Unlike traditional methods that involve drilling holes and potentially causing damage to the roof, Solar Stack utilizes a spray polyurethane foam adhesive to securely bond the mounts to the roof surface.

How long does solar stack take to install?

A traditional solar panel racking system will create 100-200 holes in a residential roof. A penetration system takes anywhere between 2-5 days to install. Solar Stack jobs can be completed in 24 hrs. Customers have peace of mind with no holes and no leaks. Unlike penetration mounting systems Solar Stack does not void your valuable roof warranty.

Blue Pacific Solar takes a comprehensive approach, offering not just racking systems but complete solar solutions. They partner with IronRidge to provide pre-configured racking kits tailored to specific roof types and panel layouts. This ...
