

Forecast of the scale of microgrids in my country

What is the global microgrid market size?

The global microgrid market size was valued at USD 9.88 billion in 2023 and is projected to grow from USD 11.24 billion in 2024 to USD 37.35 billion by 2032, exhibiting a CAGR of 16.19% during the forecast period. Asia-Pacific dominated the microgrid market with a market share of 43.02 % in 2023.

How big is the microgrid market in 2024 & 2032?

The market is further expected to grow at a CAGR of nearly 10.4% in the forecast period of 2024 and 2032 to reach a value of approximately USD 70.74 billion by 2032. The dominant region for the microgrid market is North America, accounting for a quarter of the market share.

What are the regional microgrid markets?

The regional microgrid markets include North America, Europe, the Asia Pacific, Latin America, and the Middle East and Africa. There is an increasing demand for microgrid systems that allow customers and developers to achieve the environmental goals by using renewable energy as a source of electricity.

Will Asia Pacific microgrid market surpass USD 54.5 billion by 2032?

Asia Pacific microgrid market is expected to surpass USD 54.5 billion by 2032, due to increasing energy demand, need for reliable power supply, and significant investments in renewable energy.

What factors contribute to the growth of the global microgrid market?

Low transmission losses are another factor that has been successful in increasing the growth of the global microgrid market. Microgrids produce local power and decrease reliance on long-haul lines and therefore reduce transmission losses, further catalysing the industry growth.

Where is the microgrid market located?

The dominant region for the microgrid market is North America, accounting for a quarter of the market share. Development in the region is triggered by the growing use of microgrid in defence as well as remote systems to improve cyber-attack protection.

The global microgrid market size reached approximately USD 28.98 billion in 2023. The market is projected to grow at a CAGR of 10.4% between 2024 and 2032, reaching a value of around USD 70.74 billion by 2032. Global Microgrid ...

Scale Microgrids has inked a 500-MW community solar deal, ... Wood Mackenzie forecasts that existing community solar markets will increase by an average of 8% annually with nearly 14 GW of cumulative capacity expected by 2028. Inflation ...

Forecast of the scale of microgrids in my country

The Global Microgrid Market Size is expected to reach USD 245.5 billion by 2032, at a CAGR of 16.3% during the forecast period 2022 to 2032. Market Overview. A microgrid is a small-scale electric system that may deliver power in parallel or ...
