

What are Growatt inverters?

Growatt inverters is a new energy enterprise dedicated to the R&D and manufacturing of PV inverters including on-grid, off-grid and storage inverters, and user side smart energy management solutions.

What is Growatt solar & storage?

Growatt's 'Solar +Storage' package solution offers versatile applications, ranging from new installations to retrofits, and catering to residential ESS, micro-grids, portable power supplies, and more. Growatt's smart EV charger can be used in various scenarios including residential and commercial.

What is a 5kW Growatt inverter used for?

Growatt 5kW inverters are used for various applications, including residential, commercial, PV poverty alleviation, utility-scale scenarios, and other storage power station projects.

What is Growatt's Smart EV charger?

Growatt's smart EV charger can be used in various scenarios including residential and commercial. Its capacity ranges over 3-22kW AC charger and 20/40kW DC. With the highlighted GroHome system and PV linkage charge mode, users can remotely control and charge their EVs with 100% clean power.
