

Home solar panel power generation investment

Are solar panels a good investment?

The electric power sector contributes up to 25% of all greenhouse gas emissions nationwide, according to the EPA. Using renewable energy helps reduce the use of fossil fuels and their harmful emissions. Installing solar panels typically increases the overall value of your home.

Do solar panels add value to a house?

Solar panels can add around \$15,000 of value to your home and help your house sell quicker than houses without solar, according to the US Department of Energy's Lawrence Berkeley National Laboratory. Solar panels can add to your home's value. Solar panel cost and efficiency has improved greatly over the last 10 years.

Are home solar panels a good idea?

Despite being a leading clean energy technology, there is still a lot of mystery surrounding installing home solar panels. There are several benefits to getting solar panels for your home, like electricity bill savings and powering your home with clean energy.

How do I choose a solar panel company?

Examine how your situation fits with solar panels before moving ahead and compare quotes from multiple solar companies and installers before making a decision. Solar panels use photovoltaic cells to harness radiation from the sun and convert it into electricity. They're an emissions-free energy source that reduces your carbon footprint.

Can solar panels save you money?

If your state has robust net metering or you have high energy costs, your solar panels could start saving you money in (relatively) short order. If you aren't planning on moving for many years or have reason to believe the short-term energy savings and the boost to your home's value will recoup your investment, solar could pay off.

How do I get solar power?

Here are the steps to take to get powered by sunshine. Choose a solar installer. An installer can help you determine whether your roof is suitable for solar panels. Begin by researching qualified, insured installers online or asking for recommendations from people who've gone solar.
