

Home solar power generation cost estimation

How do I estimate my solar panels?

Use this solar panel calculator to quickly estimate your solar potential and savings by address. Estimates are based on your roof, electricity bill, and actual offers in your area. Includes single family homes or up to 4 unit condo buildings. Includes educational and religious institutions.

What is a solar panel estimate based on?

Estimates are based on your roof, electricity bill, and actual offers in your area. Includes single family homes or up to 4 unit condo buildings. Includes educational and religious institutions. Use this solar panel calculator to quickly estimate your solar potential and savings based on your property address.

How much does it cost to install solar panels?

So, if the calculator gave you a lifetime energy cost of \$26,099 for a cash purchase, you can estimate that installation labor will make up around \$1,300 and the solar modules themselves cost around \$4,700.

How do I estimate the performance of my solar installation?

The National Renewable Energy Laboratory (NREL) has a calculator to estimate the performance of your solar installation. You can input your address and the NREL will use existing data to estimate your power generation potential. You can also adjust the information based on the tilt angle, number of panels, and module type.

Where can I find a free solar cost calculator?

Solar.com offers a free solar cost calculator that uses Google's Project Sunroof and real-time utility rates to estimate how much you can save by going solar. Using the calculator is easy. Click the link above to open it in a new tab, and we'll talk you through how to use it!

How do I calculate my solar cost?

Let's start with the quickest method: online calculators. First, you can use an online solar cost calculator, like this one powered by solar.com. Simply punch in your address and your average monthly electricity bill, and the calculator will give you a side-by-side comparison of the cost of solar versus paying for utility electricity.
