How much does a household battery cost?

Household batteries typically cost anywhere from \$4000 for a smaller 4 to 5kWh battery up to \$15,000 for a larger 10 to 15kWh battery, depending on the type of battery, installation location, backup power requirements and type of hybrid inverter used. On average, energy storage batteries cost around \$1000 per kWh installed.

What is a home energy storage system?

Most home energy storage systems provide partial backup power during outages. These smaller systems support critical loads, like the refrigerator, internet, and some lights. Whole-home setups allow you to maintain normal energy consumption levels--but at a cost.
