

How much is a JA Solar panel per watt

How much do JA Solar panels cost per watt?

JA Solar modules start at \$0.62 per watt on average. This price point is matched by Trina Solar and is slightly less than Canadian Solar. When compared to high range manufacturers such as Panasonic, the panels have a \$0.33 per watt lower starting price point.

How much power does a JA Solar panel provide?

This JA Solar panel provides 545 W power at 21.1% efficiency. High energy production levels are achieved through the usage of the latest advances in the solar industry, including PERC technology and state-of-the-art antireflective coating. An efficient panel yields more per square foot and pays for itself faster.

What wattages does JA Solar have?

Featuring the most compact panels within JA Solar's lineup, the DeepBlue 3.0 Light series offers wattages ranging from 380 to 415 watts. While JA Solar typically provides larger panels compared to other brands, this series aligns more closely with industry standards.

Is JA Solar a good solar panel company?

In terms of solar panel options, JA Solar has a number of variations for the customer to choose from. With the ability to get different power outputs, solar cell counts, and solar cell types, JA Solar offers a great level of flexibility that earns them a spot as a top solar panel on our reviews.

How efficient is JA Solar?

JA Solar has an average efficiency rating between 20% and 21%, putting it above the industry average. It also reaches max efficiency ratings of 22.5%, which puts it in the top five most efficient solar panel brands in the industry. High efficiency ratings mean greater production levels and higher savings over time.

What is the difference between JA Solar and standard solar panels?

JA Solar's standard solar modules also come in a 60-cell or 72-cell count. Here is a table to outline the differences in power output and efficiency for these modules: Outside of power output and efficiency, there are a few other features that differentiate these solar modules. JA Solar's standard panels have limited power degradation.

SolarReviews" picks for the best solar panels of 2024 are Qcells, JA Solar, and Silfab. What other brands made the top 10? Read to find out! Updated 2 months ago ... The value of a solar panel is evaluated by looking at the wholesale cost ...

How much do JA Solar panels cost? JA Solar panels are estimated to cost about \$2.80 per watt. However, the total cost for individual panels can be difficult to determine because a lot of factors can change their pricing, such as local ...
