

# How to be a photovoltaic bracket salesperson

How do I get a job as a solar sales representative?

Some solar sales representatives reach out to find customers while others exclusively respond to people who contact a company and ask for an assessment. The qualifications to get a job as a solar sales representative include an associate degree in a relevant field and good negotiation and speaking skills.

How do I incorporate social proof into my solar sales strategy?

Here are a few ways to incorporate social proof into your solar sales strategy: Include customer testimonials on your website, social media, and other marketing materials. Share positive reviews and ratings on third-party review sites, such as Yelp or Google My Business.

What skills do you need to be a solar sales representative?

Because it is also a highly customer-facing role, you need excellent interpersonal and multitasking skills. Fulfilling your responsibilities and duties as a solar sales representative also requires research skills, a valid driver's license, and the ability to work with little or no supervision.

Here is a general outline of the career progression in the solar sales field:

- o Entry-Level Sales Associate
- o Sales Representative
- o Senior Sales Representative
- o Sales Manager
- o Regional Sales Manager or Director of Sales
- o Vice ...
