Is a solar generator worth it?

A solar generator may be worth it depending on how you use it. The cost of the generator easily pays for itself if you live somewhere that receives ample sunlight and you utilize the energy from the generator as a home backup. Alternatively, if you frequently go on road trips, a solar generator is also worth it.

Are solar generators portable?

Solar generators are available as both portable generators and backup home generators. Most solar generators are portable, lightweight, and have a built-in handle. The best portable solar generators are used to provide power for construction sites, campers, events, or other settings where access to electricity is limited.

Should you buy a solar generator or a power station?

Ideally, you want a solar generator that juices up your electronics quickly, but you also want a power station that can be charged up fairly quickly. This usually isn't something you have to worry about with modern power stations from top brands like Jackery or EcoFlow. With solar generators, the tightest bottleneck is the solar panels themselves.
