

Is JA Solar's photovoltaic panels installed for free

Should I use JA Solar panels for my home solar panel installation?

Yes, we recommend using JA Solar panels for your home solar panel installation. They are even included in our list of top 10 recommended solar panel manufacturer brands for 2024. JA Solar panels are a great way to add renewable energy to your home.

Is JA Solar a good solar panel company?

In terms of solar panel options, JA Solar has a number of variations for the customer to choose from. With the ability to get different power outputs, solar cell counts, and solar cells types, JA Solar offers a great level of flexibility that earns them a spot as a top solar panel on our reviews.

What types of solar panels does JA Solar offer?

The final category of solar panel modules that JA Solar has to offer are the Bifacial Mono PERC Double Glass modules. There are also 4 options within this category -- two 60-cell options and two 72-cell options. Front and Back of JA Solar's Bifacial Modules

Can JA Solar modules be installed on a roof?

JA solar modules have been listed as Class A according to IEC 61730-2 standard. For roof installations, modules should be mounted over a fire resistant covering suitable for this application, with adequate ventilation between the modules backsheet and the mounting surface. Roof constructions and installations may affect the fire safety of building.

How much do JA Solar panels cost?

The average cost per watt for solar panels is \$3.00, so JA solar panels fall below that average. This could be because they are manufactured in China, making their cost to build low. The best way to find pricing for JA solar panels is to get a commitment-free quote from local installers who use them in their solar installations.

What is the difference between JA Solar and standard solar panels?

JA Solar's standard solar modules also come in a 60-cell or 72-cell count. Here is a table to outline the differences in power output and efficiency for these modules: Outside of power output and efficiency, there are a few other features that differentiate these solar modules. JA Solar's standard panels have limited power degradation.
