

Solar modules are measured at STC, Standard Test Conditions, to benchmark the standard performance specifications: Light irradiance of 1,000 W/m². Solar cell temperature of 25°C. Maximum power measurement at STC ...

When a manufacturer wants to test their new solar panels, the IEC creates these test conditions in a laboratory, puts the solar panels under that 1000 W/m² light, and measures the solar panel output. Here is an example of the specs the ...
