

# Life Energy Storage System After-Sales Service

What are residential energy storage solutions?

Residential energy storage solutions refer to installing solar panels on residential roofs, and storing solar energy obtained during the day through an energy storage system for use at night or when needed.

What are the functions of CATL lithium-ion battery energy storage system?

The functions of CATL's lithium-ion battery energy storage system include capacity increasing and expansion, backup power supply, etc. It can adopt more renewable energy in power transmission and distribution in order to ensure the safe, stable, efficient and low-cost operation of the power grid.

What is the production capacity of turnlife energy storage products?

The daily production capacity is 10,000 sets, and the annual production can reach up to 2.56 GWH. Our professional R&D team, led by experts and doctors, conducts independent research and development of energy storage products under the "Turnlife" brand. Over 100 patents have been obtained for these products.

What is a battery recycling service?

It provides a one-shop-stop solution for decommissioning, collection, and reuse or recycling services from trusted service providers that have the capability and capacity to handle and recycle or reuse end-of-life batteries in the most cost-competitive, eco-friendly and compliant manner.

Why do companies need a battery recycling program?

Renewance helps companies: Safely recycle or reuse batteries in an economically viable, regulatory compliant and environmentally responsible manner. Manage industrial batteries more effectively and responsibly throughout their active operating life through advanced software solutions and services.

Type of EnerCube Energy Storage Solutions: 1. EnerCube mini e-storage: 5kWH ~ 20kWH. Residential Battery Energy Storage System (BESS) With the best lithium-ion (LFP) batteries accessible, this intelligent most efficient energy ...

Renewance Connect(TM). Renewance Connect(TM) is our purpose-built, digital platform for industrial battery life cycle management for clients with battery-based assets. It provides a one-shop-stop solution for decommissioning, collection, ...
