

Make plastic bottles solar power

Paint mini picture frames to make fairy house window frames. Cut the top off bottle to make main body of the house. Be sure the solar light will be able to rest on the top of the bottle without falling in. If the size is wrong, ...

You can make a low cost DIY solar lamp easily with nothing but bleach, water and a plastic bottle through the "liter of light" project. Who says you can't bottle (and distribute) genius? Developed in Brazil to address under-illuminated slums, ...

This project combines the two loves into a solar water kettle made from old plastic bottles. This kettle will heat 16 oz of water in full sun to a nice hot/warm temperature for some sun tea or washing hands, but you'll have to wait a few ...
