

# New Market for Microgrid Power

What is the global microgrid market size?

The global microgrid market size was valued at USD 9.88 billion in 2023 and is projected to grow from USD 11.24 billion in 2024 to USD 37.35 billion by 2032, exhibiting a CAGR of 16.19% during the forecast period. Asia-Pacific dominated the microgrid market with a market share of 43.02 % in 2023.

How big is the microgrid market in 2024 & 2032?

The market is further expected to grow at a CAGR of nearly 10.4% in the forecast period of 2024 and 2032 to reach a value of approximately USD 70.74 billion by 2032. The dominant region for the microgrid market is North America, accounting for a quarter of the market share.

Are microgrids the future of energy?

The future of energy is here: microgrids and demand-side flexibility programs continue to usher in innovations that trend toward a better tomorrow. Here are the top trends we expect to see in demand-side flexibility programs and microgrids in 2024:

Which sector is in demand for a microgrid system?

The commercial and industrial sector represents the primary end-user where microgrid systems with power ratings ranging from 1 MW to 5 MW are in demand. Asia Pacific to grow at the highest CAGR during the forecast period. Microgrid Market by Region To know about the assumptions considered for the study, download the pdf brochure

What are the opportunities for the microgrid market?

The innovation-oriented endeavors and the funding feasibility studies in many countries are the biggest opportunities for the microgrid market. Apart from independent power generation, microgrids have evolved with high-speed control platforms and forecasting systems that make them more sophisticated.

Which segment will dominate the microgrid market in the future?

Due to such developments, the off-grid microgrid segment is expected to dominate the microgrid market in the future. Around 35% of Asia-based utility companies have predicted that microgrids will lead to new revenue streams in the next two years due to the high power demand from rural communities.

The microgrid market size exceeded USD 17.8 Billion in 2023 and is poised to showcase around 20.5% CAGR from 2024 to 2032, driven by the rising energy resilience and reliability coupled with global shift towards renewable energy ...

Microgrid Market Size & Trends . The global microgrid market size was estimated at USD 76.88 billion in 2023 and is expected to grow at a compound annual growth rate (CAGR) of 17.1% from 2024 to 2030. Rising power demand in ...
