Where is NSG group's solar plant located?

NSG Group's 1.4 MW solar plant in Rossford, Ohio, is built on a repurposed brownfield site. It is powered by more than 4,300 First Solar thin-film solar panels, featuring NSG Group's solar energy glass products. Photo: NSG From pv magazine 05/24

Does Onyx Solar offer Photovoltaic Glass?

At Onyx Solar we provide tailor-made photovoltaic glass in terms of size, shape, transparency, and color for any building's design. We offer a wide range of building integrated photovoltaic glass solutions that include, but are not limited to:

Does NSG produce TCO-coated glass for thin-film PV?

NSG has produced TCO-coated glass for thin-film PV for more than 25 years. "Every year the solar market is bigger and bigger; more capital, more resources," said Stephen Weidner, who heads NSG's North American architectural glass and solar products groups. "We see this on a global basis." Glass for solar is becoming more significant.

Who is Onyx Solar?

Onyx Solar is the global leading manufacturer of photovoltaic glass for buildings. The company is based in Vila, Spain, and has offices in the United States and China. Since 2009, we have completed more than 350 projects in 50 countries. Our current yearly production capacity is 2 million sq. ft. of PV glass.

Where can Photovoltaic Glass be used?

Our photovoltaic glass has already been installed in a wide variety of buildings in more than 350 projects worldwide. Buildings such as corporate offices, hotels, skyscrapers, airports, railway stations, government buildings, museums, and even historic buildings can benefit from our photovoltaic glass solutions.
