What are the different types of solar panel agreements & proposals?

There are different types of solar panel agreements and proposals available. The one you use will depend on a few different factors. These factors include whether you lease or buy solar panels and whether the contract is for a home, business, or even a large development. A power purchase agreement or PPA is similar to a solar lease agreement.

Can a provider sell a photovoltaic system to a customer?

WHEREAS, Provider has offered, at his sole cost and expense, to install, maintain, own, replace, repair, and operate a photovoltaic system at one or more of the Property (ies) and to sell Solar Services (as hereafter defined) produced by the solar photovoltaic system to Customer as provided in and subject to the provisions of this Agreement.

What are SPPA arrangements?

SPPA arrangements enable the host customer to avoid many of the traditional barriers to the installation of on-site solar systems: high upfront capital costs, system performance risk, and complex design and permitting processes. In addition, SPPA arrangements can be cash flow positive for the host customer from the day the system is commissioned.

Generate a solar power purchase agreement (SPPA) that enables you to design, finance, and install a solar energy system on a customer's property. Our complimentary solar contract template template outlines the responsibilities of ...
