

# Photovoltaic inverter 2025 prospects

How much solar will be deployed in 2025?

To reach these levels, solar deployment will need to grow by an average of 30 gigawatts alternating current (GW ac) each year between now and 2025 and ramp up to 60 GW per year between 2025 and 2030--four times its current deployment rate--to total 1,000 GWac of solar deployed by 2035.

How pvbl ranked the top 20 global photovoltaic inverter brands in 2023?

On the first day of the conference, PVBL's annual ranking of the Top 20 Global Photovoltaic Inverter Brands was announced. Preferential policies promoted the inverter market growth in 2023. Most of the major inverter companies won a large amount of orders and expanded their capacity with high shipment volume.

What percentage of PV production came online in 2023?

30%-40% of polysilicon, cell, and module manufacturing capacity came online in 2023. In 2023, global PV production was between 400 and 500 GW. While non-Chinese manufacturing has grown, most new capacity continues to come from China. Analysts project that it may take years for production to catch up with capacity.

Which solar sector attracts the most investment in 2020?

Utility-scale solar attracted the highest investment followed by the residential solar segment and then the commercial and industrial solar segment. Additionally, the off-grid solar sector registered a record increase in investments of 44% compared to 2020 levels though its overall share remains marginal.

Is solar PV a competitive source of new power generation capacity?

Solar PV is emerging as one of the most competitive sources of new power generation capacity after a decade of dramatic cost declines. A decline of 74% in total installed costs was observed between 2010 and 2018 (Figure 10).

Which inverter companies are leading the market growth in 2023?

Preferential policies promoted the inverter market growth in 2023. Most of the major inverter companies won a large amount of orders and expanded their capacity with high shipment volume. Sungrow and Huawei tied for first place in the list with outstanding performance.
