

How pvbl ranked the top 20 global photovoltaic inverter brands in 2023?

On the first day of the conference, PVBL's annual ranking of the Top 20 Global Photovoltaic Inverter Brands was announced. Preferential policies promoted the inverter market growth in 2023. Most of the major inverter companies won a large amount of orders and expanded their capacity with high shipment volume.

What is the global PV inverter market share?

Global PV inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023, reflecting a strong year for the broader solar industry. The top 10 global PV inverter vendors accounted for 81% of the market, according to Wood Mackenzie's 'Global solar inverter and module-level power electronics market share 2024' report.

Where is PV inverter market ranked?

The company is ranked seventh on the leader board. Areas for growth? According to a PV Inverter Market report by Future Market Insights, the global PV inverter market is poised to grow at a moderate CAGR of over 5.1% during the forecast period of 2022-2032, reaching a value of about US\$33.1 Bn in 2032 from the US\$19.2 Bn in 2021.

Which inverter brands dominate the global market?

Industry leaders Huawei and Sungrow extended their market dominance and retained their first and second positions in the rankings, respectively. Together they captured more than 50% of the global market, largely through the popularity of their utility-scale inverters.

Why are solar PV inverters so popular?

The constant economic growth in nations such as the U.S., China, and India as well as developments in supply chain and favorable government policies supporting PV inverter production in the U.S. and India are driving demand for solar PV inverters.

What are the different types of PV inverters?

The U.S. is a prominent market for different types of PV inverters. Some of the recent inverter trends in the country include the dominance of 60 kW plus capacity three-phase string inverters and 1.5 MW plus capacity central inverters.
