

Photovoltaic new energy project procurement support

Will the US add 63 GW of photovoltaic power by 2024?

The U.S. Energy Information Administration (EIA) says the U.S. is set to add 63 GW of photovoltaic (PV) power by the end of 2024. This is a huge stride forward for renewable energy, as solar and wind generation is expected to reach 16% of the U.S. grid's supply this year. That's an increase of 84% in just two years for solar production alone.

Are solar photovoltaic systems a good investment?

For sites with time-of-use (TOU) and/or demand rates, solar PV systems are to be designed to offset the greatest amount of electricity in higher cost-rate periods and achieve the greatest annual dollar savings. Feasibility evaluations to determine the potential size of solar photovoltaic systems have not been completed.

Should a utility purchase solar modules?

While it can make sense for a utility to purchase modules or other elements of their solar project in some cases, EPCs are equipped to help in this process and even manage it for utilities that are new to the process of constructing and owning solar plants.

Why should you use a solar procurement template?

Save time in compiling the specifications section of a solar procurement. The template language can be used as a starting point from which agency managers can customize their own language. Act as a checklist so that agencies managers address key issues throughout the process, to ensure the project's best possible outcome.

Can a PPA be used to finance a solar installation?

The National Renewable Energy Laboratory (NREL) has drafted example contracts for a variety of PPA arrangements for use in creating or vetting new PPA programs. DOE has a draft RFP for use in requesting applications to create either a PPA or a lease for financing a solar installation. Select each financing option to dive deeper and learn more.

What is an off-site renewables power purchase agreement (RFP) bidsheet?

This bidsheet was developed as part of the Off-Site Renewables Power Purchase Agreement - Request for Proposal (RFP) Template. The Bidsheet is meant to be released in conjunction with the RFP to help the city/county collect project and economic data across all responses in a comparable fashion.

Since the IRA passed, companies have announced US\$91 billion of investments in over 200 manufacturing projects, including US\$9.6 billion in 38 solar projects, US\$14.4 billion in 27 storage projects, US\$1.4 billion in 14 wind projects, and ...
