

Photovoltaic panel bracket on color steel roof

What is the best solar panel mounting system for metal roofs?

S-5! ProteaBracket for Trapezoidal Metal Roof Solar Panel Mounting ProteaBracket (TM) when combined with solar panel mounting rails or the S-5 PV Kit, is a versatile PV mounting solution for exposed-fastened metal roofs. It fits most trapezoidal sheet metal roof profiles with and without intermediate insulation.

Can S-5-PVKit be used on a metal roof?

The S-5-PVKit can be used to mount solar PV without traditional rails on standing seam and exposed-fastened metal roof profiles. Explore Solar With S-5!

How do you mount solar panels on a metal roof?

Metal Roof Solar PV Mounting Systems Attach solar panels to standing seam, corrugated, trapezoidal sheet and other exposed-metal roofs. S-5! S-5-PV Kit Solar PV Mounting System Components to the roof's panel seam by the tightening of a "bullet-nosed" stainless steel setscrew against the seam material.

Will S-5 clamps Pierce metal roof panels?

S-5! Clamps & Brackets for Metal Roof Solar Panel Systems Attachment of solar panel system arrays on a metal roof has always been difficult and often the source of leaks and maintenance problems until and brackets. Thanks to their patented round-point setscrews, S-5! clamps will not pierce the metal roof paneling or violate system warranties.

Are metal roofs a good option for solar panels?

Along with being one of the longest-lasting roof types, metal roofing is incredibly lightweight and does not require roof deck reinforcement. They support both the live and dead-weight of solar installations with ease.

Are standing seam roofs compatible with solar?

Although standing seam roofs are considered one of the most compatible with solar, there are several specific mounting options designed for corrugated metal roofs. S-5! produces a CorruBracket for Corrugated roofs designed for pitched roofs with rail-based installations.

S-5 ProteaBracket for Solar Panel Mounting on Trapezoidal Metal Roofs. ProteaBracket(TM) when combined with solar panel mounting rails or the S-5 PV Kit, is a versatile PV mounting solution for exposed-fastened metal roofs. It fits ...
