

Photovoltaic panel commissioning technical specifications

Do PV system commissioning standards require performance testing?

This best practice guide is PV System Commissioning or re-Commissioning Guide Supplement to characterize and maximize PV system performance. If a PV system is commissioned using industry standards, then it should produce as much energy as was expected, right? No, PV industry commissioning standards do not call for performance testing.

Can a contractor recommend a PV system size?

After the contract award, the Contractor can recommend PV system sizes at their discretion, as long as the total aggregated PV system size is within plus/minus 10% of the original estimate. Certain buildings can be added or subtracted, subject to Governmental approval.

What is a roof mounted photovoltaic system guidance?

The guidance refers only to the mechanical installation of roof mounted integrated and stand-off photovoltaic systems; it provides best practice guidance on installation requirements and does not constitute fixing instructions.

What are the specifications for a PV module?

The specifications for the PV Module is detailed below: The PV modules must be PID compliant, salt, mist & ammonia resistant and should withstand weather conditions for the project life cycle. The back sheet of PV module shall be minimum of three layers with outer layer

What are the requirements for a PV installation?

Virtually all domestic PV installations will fall under the scope of Part P. Part P requires the relevant Building Control department to be notified and approve the work. There are two routes to comply with the requirements of Part P: Notify the relevant Building Control department before starting the work.

Who inspects a PV system?

The warranty holder or a roofing contractor certified by the roof manufacturer shall inspect the PV systems to ensure the integrity of the installation. To ensure compliance with provisions of the NEC, an inspection by a licensed electrical inspector is mandatory after construction is complete.
