

Photovoltaic panel gap rainproof accessories

Does weather stripping prevent water dripping between solar panels?

The company says eliminating these gaps protects the space below your outdoor living space from sunlight and rain by weather stripping between your PV Modules. If you are installing SunModo's solar canopy, solar carport or solar awning systems, this product prevents water from dripping between the solar panels.

What are SolarGain's solar panel sealants?

SolarGain's Solar Panel Sealants are desiccated butyl/desiccated PIB solar panel sealants designed for use in a wide variety of photovoltaic (PV) modules.

How do I install weather stripping on my solar panels?

This weather stripping is supplied in a 26-ft (8m) long roll; enough material to cover the long edge gaps between 5 solar panels. Simply cut this EPDM gasket to length and push the gasket into the 1/2-inch gap between the solar panels; no gluing, no adhesive, no mess. But wait there's more....
