Are solar installation companies growing?

That means that solar installation companies like A&R Solar are growing too and hiring more workers. But let's back up. A solar installer is the company people hire to install solar panels on their homes and businesses. That might seem fairly simple, but there is a lot that goes into planning and finishing the project.

What does a solar photovoltaic installer do?

Solar photovoltaic installers are key to the process of solar panel installation and maintenance. They use specialized skills to install residential and commercial solar projects. They are responsible for safely attaching the panels to the roofs of houses or other buildings and ensuring that the systems work.
