What are the best outdoor solar lights?

For an affordable lighting option that adds ambiance to your outdoor space, we recommend the 33-foot-long Brightown Outdoor Solar string lights. Available in seven colors (we tested white), these fairy lights survived all of our durability tests and were easy to install, with only two stakes needed for the solar panels.

What are the different types of outdoor solar lights?

Outdoor solar lights fall into three general types based on their light output: motion-activated, dusk-to-dawn, and timer-controlled. Because of solar cell size and battery capacity, the gathered solar energy is a limited resource, so consider when you want the lights to shine and for how long.

How do outdoor solar lights work?

Outdoor lighting systems use solar cells to convert sunlight into electricity, which is then stored in batteries for nighttime use. Ideally, outdoor solar lights should be placed in areas where they can receive full sunlight for about eight hours a day.

Where can I find solar lights for my Garden?

Make your path lighting a statement piece of the garden with the lantern-style solar lights from the Home Depot. A fantastic workhouse, these solar spotlights from Frontgate will have all your best landscaping moments on display through the night.

Power-up your VERSA 12v garden lights with the Durasol - a free-to-run alternative to a 12v transformer supply. This 12v solar lighting system is an all-in-one unit that includes the solar panel, battery and remote control. Please note: ...
