

# Photovoltaic panels cost more than 1 yuan

How much does photovoltaic electricity cost in China?

We further adapt the cost estimation model to estimate the average carbon dioxide abatement cost of photovoltaic electric power in China at 679.72 yuan/ton in 2015 and 681.88 yuan/ton in 2016. Compared with wind power and biomass energy, photovoltaic electric power is currently less economical for carbon dioxide emission reduction.

How much does PV cost in China?

In terms of manufacturing, the production cost of PV modules in China has dropped to nearly CNY2 W p-1 (W p, watt-peak) (US\$1 = CNY6.23 in 2015, according to The World Bank), and system equipment investment has dropped (as of 2018) to a global leading level of nearly CNY5 W p-1 (ref. 19).

Can photovoltaic electricity be compared to grid prices in China?

Although solar photovoltaic use grows rapidly in China, comparison with grid prices is difficult as photovoltaic electricity prices depend on local factors. Using prefecture-level data, Yan et al. find that 100% of user-side systems can achieve grid parity, while 22% can produce electricity cheaper than coal-based power plants.

How much is PV power subsidy in China?

The total subsidy was 0.43 yuan/kWh in 2017. Since the annual average effective running time of PV power plants is 1300 h in China, the total annual subsidy for PV power generation is the product of the subsidy rate multiplied by 1300 h and the total installed capacity.

Is China a major market for solar photovoltaics?

Provided by the Springer Nature SharedIt content-sharing initiative In recent years, China has become not just a large producer but a major market for solar photovoltaics (PV), increasing interest in solar electricity prices in China.

What are the costs of solar PV projects?

The costs of solar PV projects include power generation, predevelopment, construction, and operation and maintenance costs, as well as the discount rate of fixed-term considerations, the depreciation of fixed assets, and/or the residual value of assets (equation (1) 63):
