

## Photovoltaic panels installed on roofs to melt snow

If this is the case, your solar installer can still install a solar panel system on your flat roof, but they will need to penetrate the roof to do so. Most times, a third-party roofing contractor will do these penetrations. ... This angle helps snow slide off ...

Key takeaways. Solar panels work well in cold weather. While it is true that they do not work if there is snow on top of them, the snow usually slides off or melts pretty quickly.. Living somewhere with snowy weather is not a reason to not ...
