

Photovoltaic support service items

What are photovoltaic structures?

Photovoltaic structures represent the supports for photovoltaic panels. These photovoltaic panels can be with an aluminum frame with a thickness of between 30 mm and 45 mm, or photovoltaic panels with double glass without frames. Below are our structure systems available for ground-mounted power plants:

How many photovoltaic panels can be installed?

Photovoltaic panels can be configured in a portrait or landscape panel section of up to 6 landscape panels. Carport type photovoltaic parking systems structure. Intended for the production of electricity using photovoltaic panels. energy use for the house or nearby premises. Photovoltaic system with installation of vertical type bifacial panels.

How does SMA meet the challenges of a photovoltaic market?

SMA meets the challenges of an always changing photovoltaic market by offering an enhanced extended service warranty concept, providing even more coverage and support for our valued partners.

What are PV modules & arrays?

Modules can be used individually, or several can be connected to form arrays. One or more arrays is then connected to the electrical grid as part of a complete PV system. Because of this modular structure, PV systems can be built to meet almost any electric power need, small or large. PV modules and arrays are just one part of a PV system.

Can photovoltaic panels be mounted on a galvanized roof?

Photovoltaic system with panel mounting on the roof of a galvanized structure. Photovoltaic panels are rarely mounted on the roof to allow the entry of sunlight and rain. The structure has no walls and can have openings up to 15 meters without intermediate pillars. This system is designed for agricultural and keeping animals in free outdoor areas.

Our renewables experts provide in-depth information on the ever-changing solar market, as well as knowledge and technical support for installers and end-users. Our solar services offer a variety of benefits. Lock in electricity prices and ...
