

# Photovoltaic support system service factory direct sales

What is independent photovoltaic power generation?

Independent photovoltaic power generation is also called an off-grid photovoltaic system, which is different from a grid-connected system by adding a controller, battery, and AC inverter. Sunrise company China has thousands of solar system solutions, focusing on the design of the distributed photovoltaic system.

How does SMA meet the challenges of a photovoltaic market?

SMA meets the challenges of an always changing photovoltaic market by offering an enhanced extended service warranty concept, providing even more coverage and support for our valued partners.

What are the different types of photovoltaic power generation systems?

The photovoltaic power generation system is divided into an independent photovoltaic system and a grid-connected photovoltaic system. Independent photovoltaic power generation is also called an off-grid photovoltaic system, which is different from a grid-connected system by adding a controller, battery, and AC inverter.
