

Recommended brand of solar bracket airbag

What are airbag brackets?

The first part -- air bag brackets -- refers to any kind of bracket or mount you will need for the rear of your ride to work with an airbagged suspension. Sometimes these are as simple as a circle plate with the mounting holes prepped for an airbag, other times it's a full weld-on bracket setup; It just depends on your application.

What are air bag brackets & rear links?

Let's figure it out. We'll start by defining what each part means in the "air bag brackets and rear links" category. The first part -- air bag brackets -- refers to any kind of bracket or mount you will need for the rear of your ride to work with an airbagged suspension.
