

Risheng single glass photovoltaic panel price

Will rising solar glass prices lift profits?

While the news will be welcomed by investors, Xinyi Solar pointed out the rise in average selling prices for solar glass witnessed - compared to the first six months of last year - would lift profits despite the fact prices have fallen "substantially" in the current three-month window. The latest edition of pv magazine is out!

Will shuangliang Eco-Energy buy polysilicon?

Wafer manufacturer Shuangliang Eco-Energy announced on Tuesday it will buy 134,950 MT of polysilicon from two different manufacturers. The first deal was signed with TBEA-owned Xinte Energy's poly division, from which it will buy 82,200 MT from January 2021 to December 2026.

How will photovoltaic products contribute to a thumping rise in profit?

Whilst rising income from float glass sales was also mentioned, photovoltaic products will contribute significantly to a thumping rise in profit to HK\$4.98-5.39 billion (US\$642-694 million).

Application of Single-glass Monocrystalline Silicon PV Modules. Solar panels are the most visible part of a solar system and are a surprisingly simple and reliable way to generate electricity, they collect energy from the Sun in the form of ...
