

Silk Core Solar Photovoltaic Panel

What is silk Nova?

Silk Nova is a new series of monocrystalline solar panels with high efficiency 182 mm n-type cells. The module configuration with 108 cells and a power of 440 Wp is perfect for residential and commercial installations.

What color solar panels are available?

Silk Colour is available in four coloured versions: Red, Orange, Green & Silver with up to 390 Wp power and the colour of the frame can be customized too! Discover FuturaSun's best selling series of monocrystalline colored solar panels Silk Colour! Available in Red, Orange, Green and Silver. Contact us now!

What are futurasun's best selling monocrystalline PV modules?

FuturaSun's best selling series of monocrystalline PV modules Silk with a touch of colour! The 108 cells modules are now also available with coloured glass and coloured frame which transform the module into a pleasant architectural element for Building Integrated Photovoltaics.

Are 108 cells suitable for building integrated photovoltaics?

The 108 cells modules are now also available with coloured glass and coloured frame which transform the module into a pleasant architectural element for Building Integrated Photovoltaics. They are also suitable for particular requirements for historic city centers or for special architectural needs of modern constructions.

What are the different types of silk frames?

They are also suitable for particular requirements for historic city centers or for special architectural needs of modern constructions. Silk Colour is available in four coloured versions: Red, Orange, Green & Silver with up to 390 Wp power and the colour of the frame can be customized too!

3.2% \pm 0.18%; Silk Nova Orange is a high-efficient monocrystalline module with 108 N-Type multi-busbar, half-cut cells. The brick orange glass (RAL 8007) and the colour-matching frame makes these photovoltaic modules perfect for ...

Silk Plus is a series of monocrystalline PV modules with large area 182 mm 144 PERC half-cut cells with power up to 550 Wp. Silk Plus reaches an high efficiency and is the latest solution for those looking for high performance ...

FU 390 M Silk Nova Green. Silk Nova Colour is FuturaSun's latest range of coloured photovoltaic modules. Silk Nova Green photovoltaic modules allow the photovoltaic system to blend with green.. Silk Nova Green is a high-efficient ...
