

Solar Power Outdoor Light

What are outdoor solar lights?

Outdoor solar lights simplify exterior illumination, giving you beautiful, functional lighting without the need for wiring. These lights are available in a variety of forms to give your backyard or patio a cozy glow, light up gardens and walking paths, or improve home safety and security.

Are solar-powered outdoor lights a good idea?

Using solar-powered outdoor lights can set that glowing backyard ambiance in a more sustainable way, and eliminates the need for long, ugly cords or constant battery replacement. They're powered by solar cells that convert sunlight into electricity, which is then stored in an internal battery.

What are the best outdoor solar lights?

For an affordable lighting option that adds ambiance to your outdoor space, we recommend the 33-foot-long Brightown Outdoor Solar string lights. Available in seven colors (we tested white), these fairy lights survived all of our durability tests and were easy to install, with only two stakes needed for the solar panels.

Are solar lights a good option for camping?

Others use solar lighting as a portable lighting option. "A lot of people who enjoy camping outdoors typically opt for solar-powered lanterns and bulbs as they are portable and self-sustaining for their power," Jameson says. Outdoor solar lights have a battery that can eventually be replaced if it stops working.

How do solar outdoor lights work?

All solar outdoor lights draw power from the sun during daylight hours and store that power in a battery, or batteries, housed inside the lights. When the sun sets, the lights use that stored power to produce light. Some models come on automatically at dusk, and some can or must be turned on manually.

How do I choose a solar powered light?

If you're looking for solar-powered lighting to increase outdoor visibility at night or ward off unwanted intruders, look for motion-activated options, such as the BAXIA motion sensor lights. A light's brightness is measured in lumens. The higher the lumens, the brighter the light will be.
