

# Solar panel photovoltaic source manufacturers

What are the top solar panel manufacturers?

The top global solar panel manufacturers, based on their scale, include companies such as TW-Solar, JA Solar, AIKO, and others - these manufacturers ship a large number of solar products around the world each year.

Where are solar panels made?

Four of the biggest manufacturers are headquartered in China and primarily manufacture equipment there (though one of them, Jinko Solar, does have an American manufacturing facility in Florida). The fifth largest manufacturer is a Canadian company, Canadian Solar, which also has a manufacturing facility in Texas.

What is a solar photovoltaic manufacturing map?

The U.S. Solar Photovoltaic Manufacturing Map shows only active manufacturing sites that contribute to the solar photovoltaic supply chain. It details their nameplate capacities, or the full amount of potential output at an existing facility, where known. This does not imply that these facilities produced the amount listed.

Which companies produce the most solar panels around the world?

Discover which companies are producing the highest number of solar panels around the world. China produces 86% of the world's solar panels each year, according to Germany's Fraunhofer Institute for Solar Energy Systems. In comparison, Europe and North America each produce around 2%.

Who is the largest solar panel manufacturer in the world?

Tongwei Solar (TW-Solar) is the largest solar panel manufacturer in the world. TW-Solar shipped a whopping 38.1GW of solar modules in 2022, doubling Trina Solar's shipments and achieving an annual revenue of USD \$20.57 billion (&#163;16.2 billion). In August 2023, Tongwei Group made history as the first solar PV company on the Fortune Global 500 list.

Where are solar panels made in the UK?

There are a few solar panel companies in the UK, including England-based UKSOL, GB-Sol in South Wales, and Viridian Solar (who produce roof-integrated solar panels). However, it's worth noting that many of these manufacturers use overseas factories to be able to offer competitive prices to consumers.
