

Special tube for solar panels

What is a torque tube for solar panels?

A torque tube in solar arrays is a horizontal structural element that connects multiple solar panels. It is typically made of high-strength materials like galvanized steel, stainless steel, or aluminum.

What is a solar tube used for?

They are a good choice for integrating daylight into small, dark spaces in your home such as hallways, laundry areas, closets, and bathrooms. How do solar tubes work? Solar tube heads are optically engineered to direct as much light as possible into the tunnel below and come in a variety of sizes which range from about 1 to 2 feet in diameter.

What is a solar vacuum tube?

Solar vacuum tubes are made up of two layers of glass with a vacuum in between, kind of like a Thermos. Naked Energy claims that its Virtu products are three to four times more efficient than traditional PV solar panels, and ELM calls Naked Energy a developer of the "world's highest energy density solar technology" in its news announcement.

Are solar tubes a good idea?

Solar tubes are especially practical if your home has a lot of attic space. Instead of installing expensive header beams, new drywall, and skylights, you can pipe sunlight through a solar tube and get a similar lighting effect at a fraction of the cost. Solar tube installation is relatively fast and simple.

How do I choose the right solar tube for my home?

Making a good choice for the right kind of solar tube for your home depends on a few factors. If you've got multiple levels of home to brighten with more than one fixture per room, and you're due for a roofing upgrade, we'd recommend larger, Energy Star-rated Sun Tunnel offerings from Velux.

How big should a solar tube be?

A solar tube can be anywhere from 10 to 22 inches wide, and provides lots of natural sunlight, even on cloudy days. Solar tubes offer some significant advantages compared to traditional skylights. They're less expensive and easier to install, and they prevent the kind of heat loss (and gain) that can come with a full-sized window in your roof.
