

# Specifications and models of photovoltaic panel packaging pallets

What sizes does pvpallet offer?

Watch the Full Product Demo. PVpallet's solar panel pallet is available in two sizes. Series X is designed for solar modules between 63.5" and 83.5" in length. Series XL is designed for larger 90" modules. Custom sizing is available upon request.

What is solar panel packaging?

A typical solar panel packaging consists of a cardboard box with the footprint of a pallet and houses between 26 to 36 panels in the box. A good solar panel packaging design makes it easier to transport solar panels on a pallet, and provide excellent protection to the panels during transport.

What size is a solar panel pallet?

PVpallet's solar panel pallet is available in two sizes. Series X is designed for solar modules between 63.5" and 83.5" in length. Series XL is designed for larger 90" modules. Custom sizing is available upon request. Max. Interior Dimensions (L x W x H): 83.5" x 44.8" x 42.2"\*90" x 44.8" x 42.2"\*, walls must be set to max width only.

What makes a good solar panel packaging design?

A good solar panel packaging design makes it easier to transport solar panels on a pallet, and provide excellent protection to the panels during transport. WINAICO's solar boxes are so tough that one can withstand the weight of a ton, roughly the weight of a pallet full of solar panels, for an hour.

Are solar panel pallets reusable?

Adjustable, collapsible, reusable pallets engineered for solar panels. PVpallet's solar panel pallets, Series X and Series X.L, fit a range of panel sizes. These pallets are purpose-built with added features like protective sidewalls, a steel-reinforced base, and an efficient load management system.

How much does a full solar module pallet weigh?

As part of our internal design criteria, we would stack a full solar module pallet, which weighs more than 700 kg, on top of an empty box. A qualified packaging design would maintain perfect form for 5 minutes to confirm the empty box does not crumple under the weight of a full pallet.

PVpallet's reusable solar panel pallets can be adjusted to fit a range of panel sizes and are purpose-built with added features like protective sidewalls, a steel-reinforced base, and an efficient load management system. This game ...

PVpallet Series X.L offers a solution to this challenge, enabling larger (up to 90 inch) solar panels to be shipped and stored on a collapsible, reusable pallet system. With this solution, solar project developers,

installers, ...
