

What does shift do?

Shift - delivering clean energy solutions based on leading-edge energy storage systems. Meeting climate action goals through electrification and unlocking the potential of new technologies through hybrid solutions. Our fixed battery solutions are designed as a modular, stackable and configurable energy storage system to maximize space.

What is a SAFT energy storage system?

Saft, a subsidiary of France's TotalEnergies, has unveiled the new compact, modular Intensium Shift utility-scale energy storage system. The 3 MWh unit is a scalable building block suitable for storage projects up to gigawatt-hour scale and is designed for two to eight hours of energy-shifting applications.

Who owns time shift BV?

Dumarey Flybrid, part of the Dumarey Group, announces the acquisition of Time Shift BV of the Netherlands. Dumarey Flybrid focuses on high-efficiency energy storage and management. Key amongst the existing Dumarey Flybrid portfolio is the Peak Power 200, a Flywheel Energy Storage System.

What is a battery energy storage system?

Originally developed for Formula 1 racing, today the system is widely used to save fuel and emissions on dynamic industrial equipment such as pumps and tower cranes. Time Shift B.V. is a manufacturer of innovative battery energy storage systems (BESS), reusing "second life" batteries which have seen previous service in electric busses and trucks.

What is a SAFT LFP battery storage system?

Saft, a unit of TotalEnergies, has launched a new LFP battery storage system that is optimized for time-shifting applications. The Intensium Shift is a fully integrated storage system. Saft, a subsidiary of France's TotalEnergies, has unveiled the new compact, modular Intensium Shift utility-scale energy storage system.

What size options do shift battery solutions come in?

Size Options Shift battery solutions come in a modular format, containerized, or via PwrSwäp ePods. Containerized ESS is a fully mobile end to end Microgrid, containing DC Energy Storage and all of the AC power equipment needed to power your application.
