

# The function of telescopic arm to lift photovoltaic panels

Adjustable Height & Length: The telescopic arm can be adjusted from 4 to 9.5 ft, perfect for installing sheets. And the sheetrock lift drywall lift can reach a height of 16 ft that can help you attach to the ceiling. 60°; Tilttable Rotation Panel: Our ...

A scissor lift is a kind of platform. It can move up and down. This helps people reach high places for work. The mechanism works like scissors. It gets its name from linked supports that fold in a crisscross "X" shape. This unique design ...
