

The real salary of photovoltaic panel installation

How much do solar photovoltaic installers make a year?

The median annual wage for solar photovoltaic installers was \$48,800 in May 2023. Employment of solar photovoltaic installers is projected to grow 48 percent from 2023 to 2033, much faster than the average for all occupations. About 4,100 openings for solar photovoltaic installers are projected each year, on average, over the decade.

How much does a solar installer make?

While Salary.com is seeing that the highest pay for Solar Installer in the US can go up to \$97,237 and the lowest down to \$55,867, but most earn between \$63,059 and \$84,714. Salary.com shows the average base salary (core compensation), as well as the average total cash compensation for the job of Solar Installer in the United States.

What does a solar photovoltaic installer do?

Solar photovoltaic installers are key to the process of solar panel installation and maintenance. They use specialized skills to install residential and commercial solar projects. They are responsible for safely attaching the panels to the roofs of houses or other buildings and ensuring that the systems work.

Which cities pay the highest salary in solar photovoltaic installation?

The metropolitan areas that pay the highest salary in the solar photovoltaic installer profession are Ogden, Santa Cruz, San Francisco, San Jose, and Urban Honolulu.

What skills does a solar photovoltaic installer need?

Solar photovoltaic installers must be able to work with power tools and hand tools at great heights, and possess in-depth knowledge of electrical wiring as well as basic math skills. When necessary, installers must be problem solvers, able to repair damaged systems or replace malfunctioning components.

How does solar photovoltaic manufacturing work?

In the United States, solar photovoltaic manufacturing is highly automated. Machines do the majority of work: cutting semiconducting materials, such as crystalline silicon, into wafers, turning them into solar cells, and assembling the solar cells into solar panels.
