Why is Tongwei the world's first PV module manufacturer?

The module provides an impressive power output of 730W+ and represents a significant breakthrough for the company. During the exhibition, Tongwei also became the world's first PV manufacturer to successfully pass SEE on-site evaluation. PV Tech has been running PV ModuleTech Conferences since 2017.

What is Tongwei solar?

Tongwei Solar is the world's largest of manufacturer crystalline silicon cells, with four bases in Hefei, Chengdu, Meishan and Jintang. At present, the quality of Tongwei's solar cells are first class, with technical indicators reaching the top level in the world.

Did TW solar win a bid for 3GW of PV modules?

Indeed, in August 2022, TW (Tongwei) Solar won a bid for 3GW of PV modules in the fifth batch of China Resources Power's centralized procurement, with a price of RMB1.942/Watt (US\$0.27), causing major waves in the PV market.

Is Tongwei Group A 'China Top 500 enterprise'?

With a market value exceeding 300 billion RMB in 2022, Tongwei Group is a "China Top 500 Enterprise". The company has invested heavily in technology and new manufacturing capacity in recent years and is now arguably the world's largest vertically integrated solar company.

What makes Tongwei a high-purity crystalline silicon 'intelligent manufacturing in China'?

With a purity of 99.999999999%, the products represent the excellence of high-purity crystalline silicon "intelligent manufacturing in China". With the solid and robust upstream reserves within the industry chain, Tongwei entered the module business in 2013. The product is produced by the "Industry 4.0" system of smart manufacturing.

What is Tongwei polysilicon lead?

The quality, technical indicators and costs of Tongwei polysilicon lead globally, covering both electronic and solar grades. Tongwei has established strategic partnerships with several well-known downstream photovoltaic cell and module enterprises in China. The product quality has received high recognition in the market.

The business covers the development and investment of silicon wafers, solar cell, solar panel and photovoltaic power plants, solar energy system integration and sales, etc. Up to now, it has provided solar modules, system solutions and ...
